

Thunder and Lightning: Desert Storm and the Airpower Debates, 2012, Us Air Force, Edward C. Mann, 1249158168, 9781249158165, BiblioBazaar, 2012

Colonel Mann undertakes a critical analysis of air and space warfare as planned and waged in Operation Desert Storm. He explores debates about airpower and its uses as they played themselves out before, during, and after the successes of the Gulf War. He compares the debates of the 1970s-1990s with those of the 1920s-1940s and wonders if we will ever sort them out. Colonel Mann explores the underpinnings of successful warfare and observes that the warriors of the future must have a strong knowledge of principles and concepts of war to apply information, training, and technological resources with acumen needed to win future victories. Thunder and Lightning is a companion volume to Reynolds's Heart of the Storm
